Claude Plisson

AHSA Président

Vision

"Our club has grown significantly in recent years. We are coming to a decisive period, both in sporting terms, with the Olympic Games in Paris in sight, and in ecological and social terms. In order to be able to continue our evolution, we want to set up an track and field meeting, which is so lacking in this city. "

Mission

"For the implementation of this event, we want to enter the circuit of EAP meetings, which is today an example in terms of competition in our sport. Our association promotes the values of respect and living together. It is quite logically that we share the same interests as the EAP and that we wish to join this great family."

Purpose

"This project could not exist without the help of our team, our volunteers and our athletes. Thanks to this project, we will continue to promote our club as well as the city of Annecy."

About AHSA

325 athletes

**400 volunteers
for our events**

**16 athletes qualified
for the French
championships**

25 coaches

**4 medal-winning
athletes at national and
international
championships**

**4 athletes drafted into
the national team**

OUR ELITES

**Eddy
Leech**

European Champion 2021
4x400m

**Alexandra
Tavernier**

French hammer throw
record holder, 8 times
French champion

**Hugo
Tavernier**

2021 French hammer
throw champion

**Anastasya
Delbe**

Vice champion of France
2021 in the 400m
U23

**Sarah
Leech**

French Champion 2022
N2 indoor long jump

Relay team

4 x French champion in
the 4x400m, French
record holder in the
medley short relay

Also...

Imad Hmouche, 400m hurdles

Isaqh Cherroud, 400m

Kimi Madin, 100m

Antoine Vincent, 110m hurdles

Pascaline Masciotra, Marathon..

OUR ORGANIZATIONS

MARATHON

The Annecy marathon is the event of the month of April. With more than 10,000 participants, 5 races throughout the weekend and many activities, the marathon highlights the beauty of the lake and the city of Annecy.

COLORS Run

A playful 5km race and bright colors on all sides. The Colors Run, usually in the month of September, is an untimed "race", for the youngest and oldest.

CHARITY RACE

AHSA is involved in charitable projects. The latest concerned the "connected races" in favor of the city's hospital service during the health crisis.

Meeting EAP Annecy

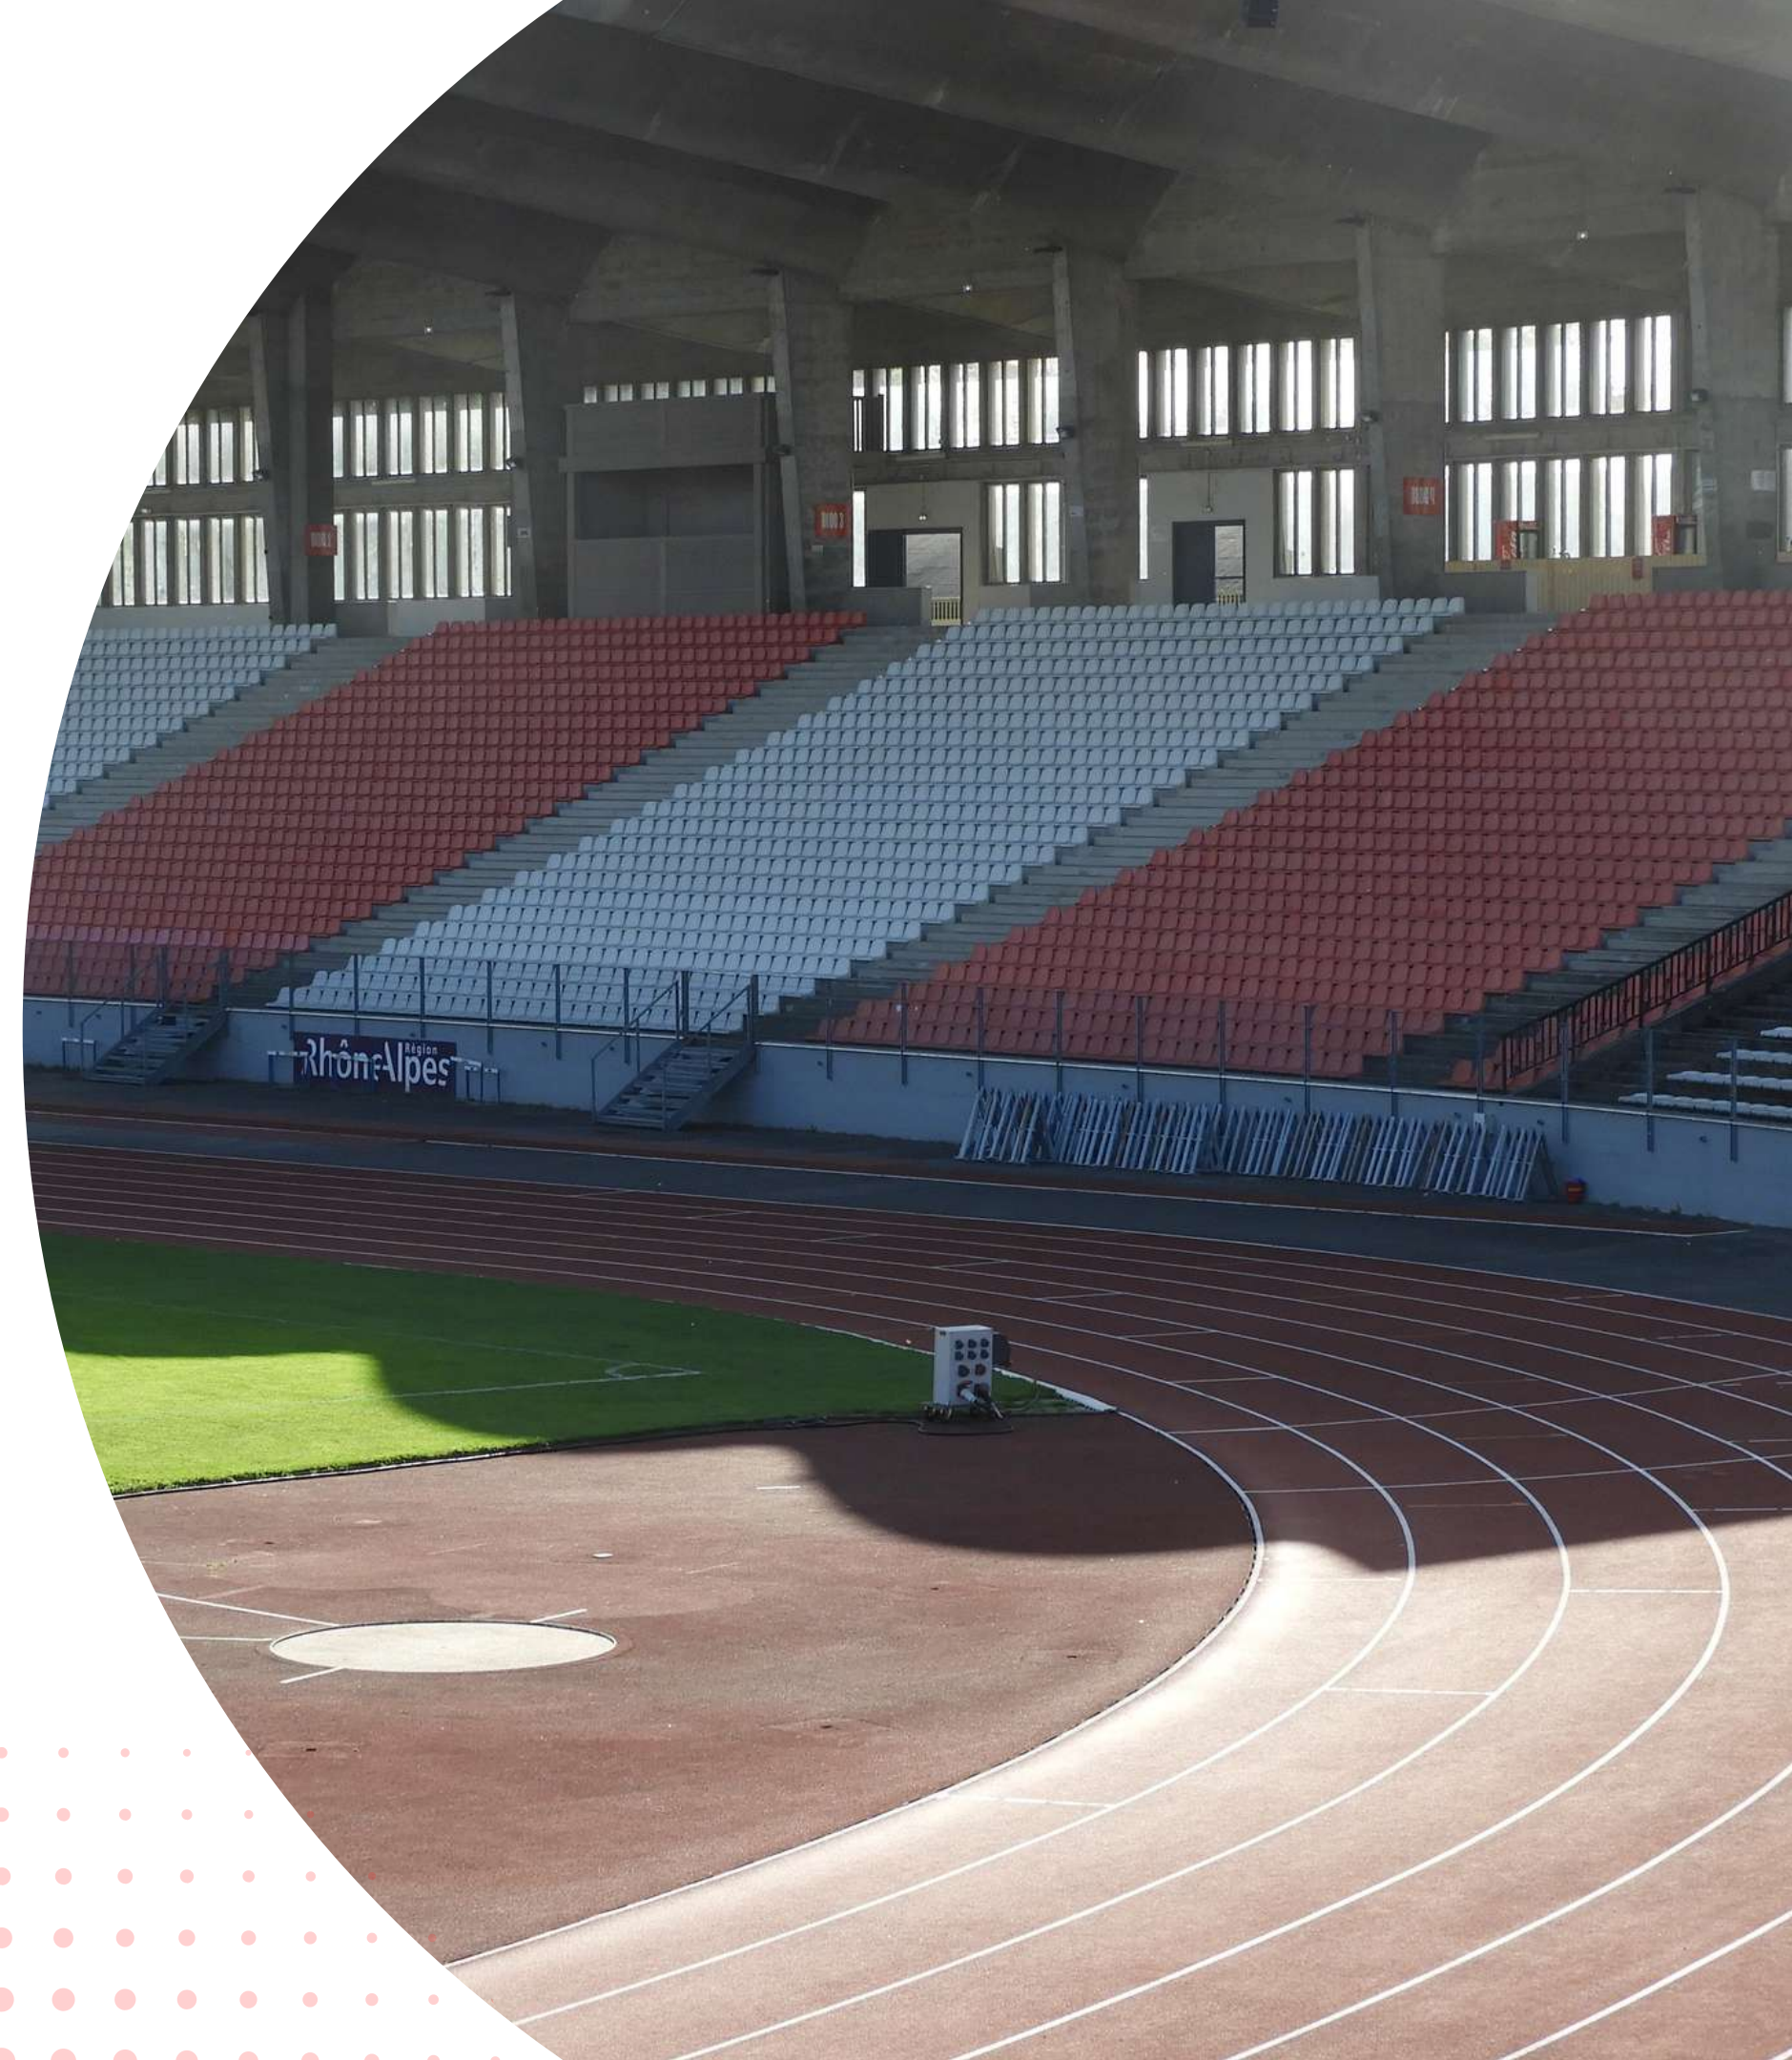

Establishment of an International Meeting in Annecy in June 2023

The "EAP" certification is based on the foundations of cooperation and collaboration between the various organizing committees of the circuit. Organizing an EAP meeting means highlighting the passion for athletics and the development of this sport. This event mainly attracts the best European athletes, but also athletes from other backgrounds.

This independent circuit continues to expand and should be organized again in France. Annecy has hosted the biggest national and international competitions, and has all the characteristics to make it a great event.

Bringing an track and field event back to life in Annecy is therefore a necessity for the city, our club and our sport.

Meeting EAP Genève

The Geneva Meeting is today one of the biggest track and field competitions on the **European** continent. Many athletes from all over the world meet there, in search of adversity and minimums, as a preparation for future major events.

The possibility of continuing with a new competition the next day would “relieve” athletes and coaches, looking for races to achieve high-level performances. In addition, the proximity between Geneva and Annecy would facilitate transport between the two cities.

These 2 events will bring **attractiveness** to the Annecy-Geneva area and allow maximum visibility for our sport. A true vector of the values of the EAP, the Geneva meeting is a gateway to the Annecy meeting, and a new challenge for the athletes.

Purpose

Propose an EAP meeting again in France and create synergy between Geneva and Annecy.

Short term

Reestablish an EAP meeting in France

The last EAP meeting in France dates back to 2019, precisely in Valence. We want to join the EAP circuit in order to recreate a dynamic around athletics.

Medium Term

Be a reference in terms of meetings at the national level

The EAP meeting must become one of the best meetings in France in terms of performance.

Long term

Be part of the best European meetings

Geneva attracts the best athletes in Europe. We want to take inspiration from their model to become a major meeting.

Challenges of the meeting

Make the practice of track and field more accessible. We want to use this celebration to make people discover (or rediscover) our sport and to answer questions that young people may have about our practice.

By setting up youth events at our meeting, we hope to transmit our passion for the track and allow children to rub shoulders with the greatest champions.

The development of "Track and field for all" goes through this type of event and we intend to integrate the most young people for these races. We will continue our collaboration with players in the sector, especially schools, to raise awareness about our sport.

Annecy, land of Track & Field

1986 - French Relay Championships

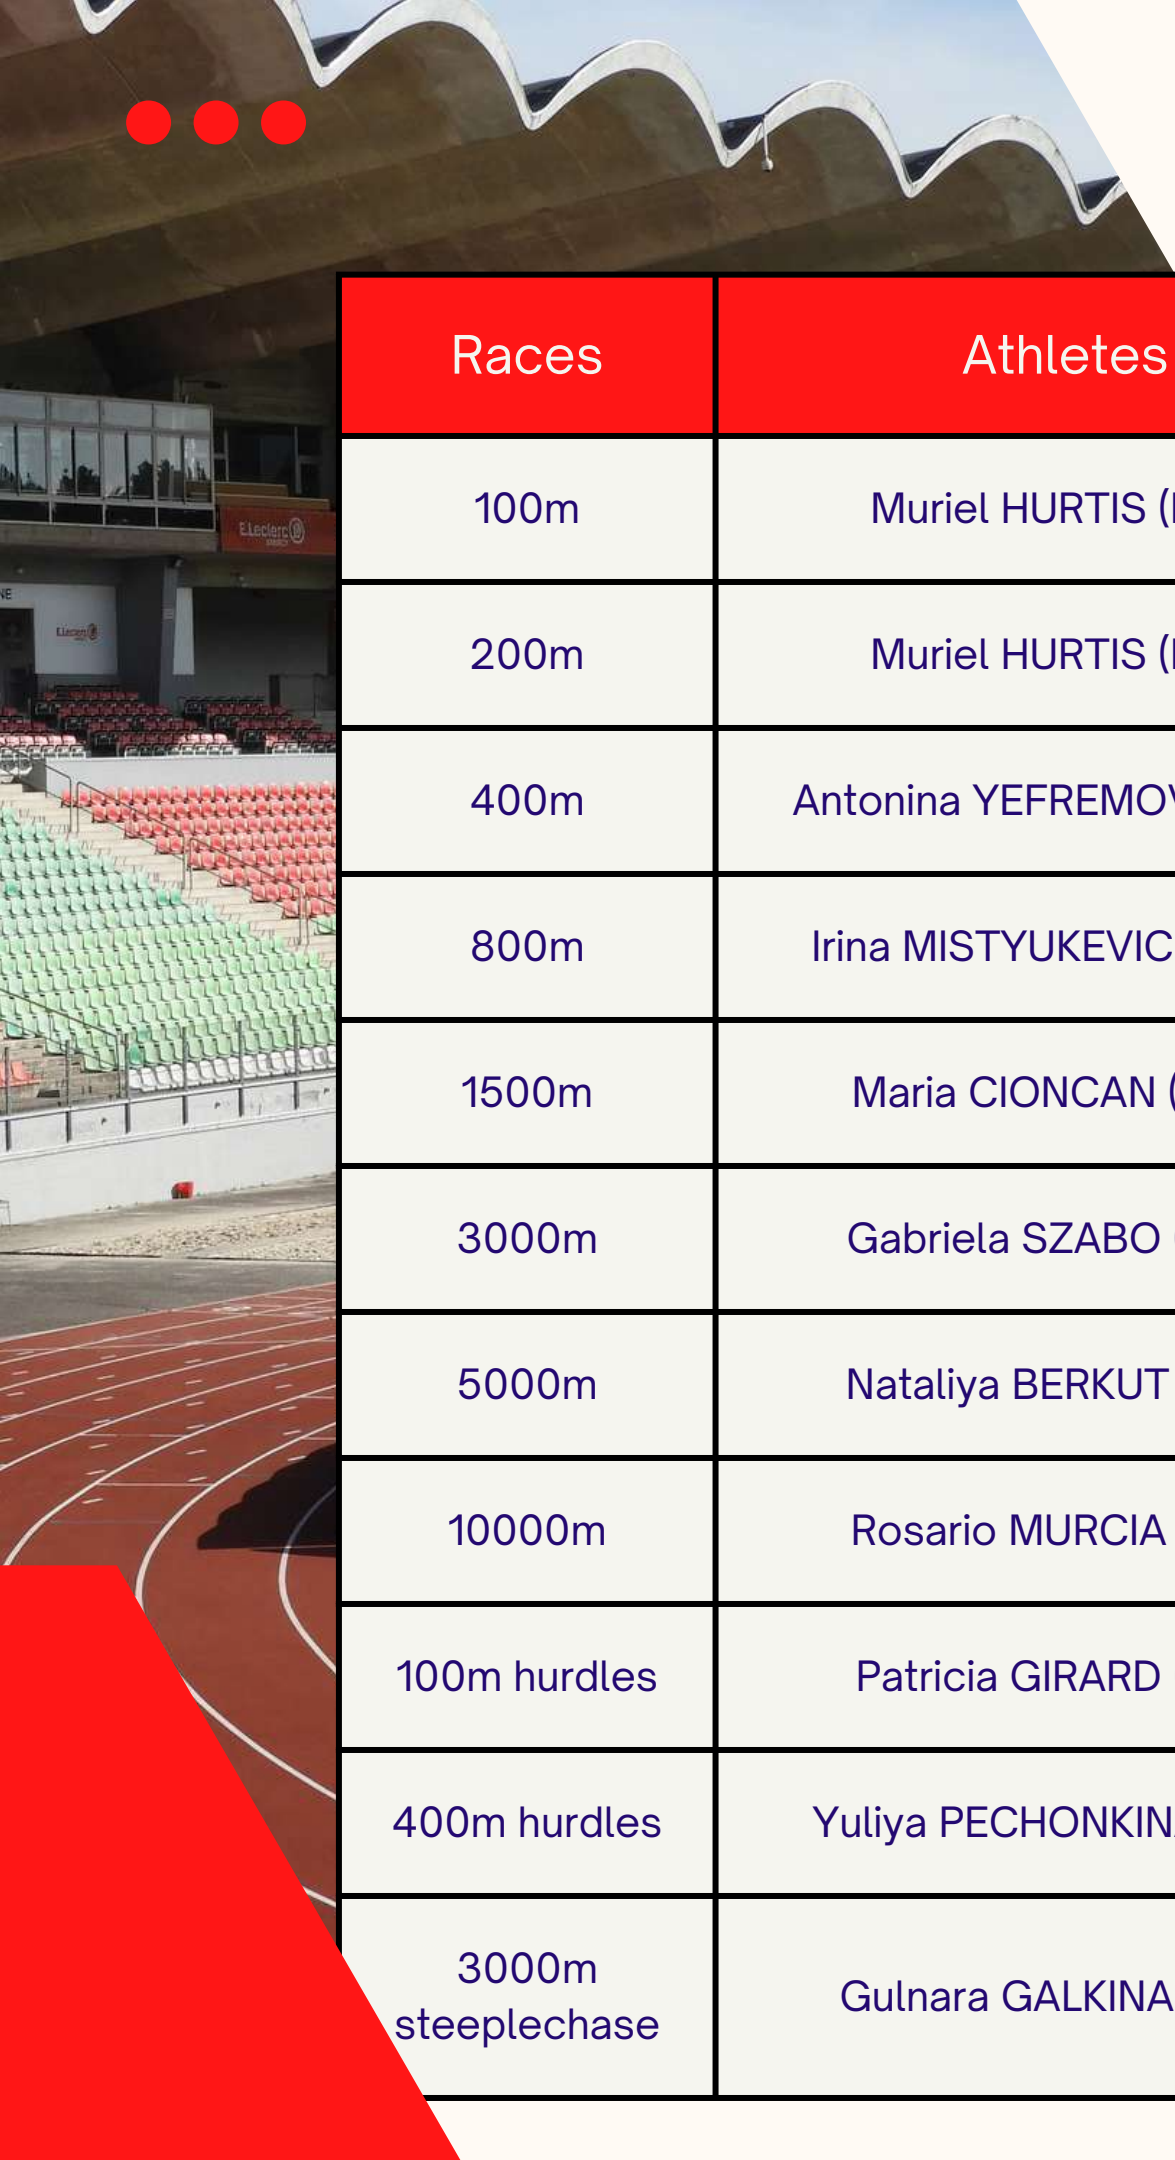

1987, 1993 et 1994 - French Championships

1998 - World Junior Championships

2002 et 2008 - European Team Championships

2010 - Décathlon

How to get there ?

PARC DES SPORTS, ANNECY

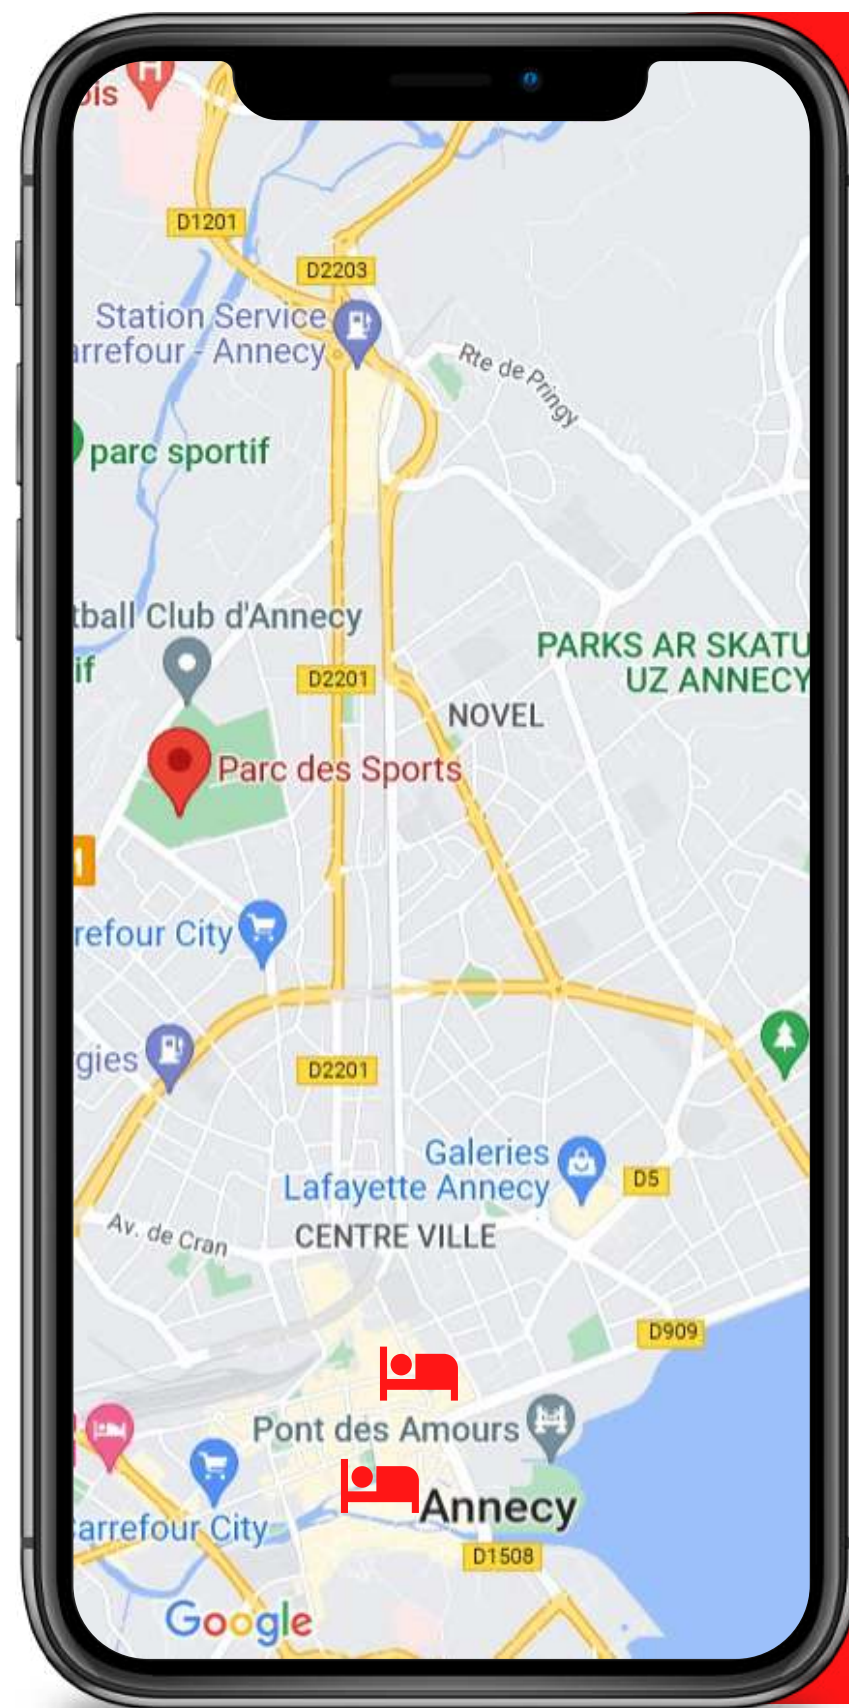

40MIN - GENEVA
1H30 - LYON
3H00 - TORINO

50MIN - GENEVA
2H00- LYON

NEAREST AIRPORTS
40MIN - GENEVA
1H10- LYON

We guarantee to provide domestic transportation service (free shuttle) from airports (Geneva and Lyon) to the hotel and also to the Parc des Sports.

We offer a range of 3-star hotels, right in the center of Annecy, near the old town and the lake. The stadium is less than 10 minutes away by car.

On the day of the event, we only provide the meal after the meeting. Before the meeting, athletes and officials will be offered a meal at the hotel restaurant or at the stadium.

**Thank you for
your attention**
